PRESS RELEASE

FOR IMMEDIATE RELEASE

BlueLevel Technologies, Inc. Provides *Just Level* Focus

Peru, IL, United States - November 15, 2009 - "The industrial markets for level measurement and monitoring instrumentation need a new and innovative approach to service and product", according to Joe Lewis, Managing Director at BlueLevel Technologies, Inc., located at 3600 Cougar Drive in Peru, IL.

BlueLevel Technologies' Joe Lewis, with 35 years of process measurement and control experience and knowledge is pleased to announce the company's *Just Level* service strategy. *Just Level* is designed to anticipate, meet and exceed the needs of its customers and their industries. Lewis' further explains that "*Just Level* illustrates the BlueLevel Technologies focus on level measurement and monitoring instrumentation for powder, granular and liquid materials, something few companies truly can claim."

Just Level is the Idea that serves industry better. Great companies are separated from simply good companies by their ability to focus passion on just one thing, and then live, breath, eat and sleep just that one thing. *Just Level* from BlueLevel Technologies assures users Undivided Attention, Quality Experience, and Unprecedented Support.

BlueLevel Technologies *Just Level* focus brings its 35 years of process measurement and control expertise directly to the user. Lewis' further explains that the BlueLevel difference is its "uniquely innovative website, communities, products and openness of information and service."

Visit the BlueLevel Technologies website at www.blueleveltechnologies.com and become an elite associate member of the BlueLevel Technologies team to begin your experience of *Just Level*.

For more information contact Joe Lewis, Managing Director, at 888-262-2662, 815-224-2224 or by email joe@blueleveltechnologies.com

BlueLevel Technologies Non-contact radar device designed specifically for solids? Yes, that's what is claimed. Krohne is a reputable company so their claims may be true. However, Krohne is distracted like many other suppliers in that they are not just level, they are spread thin across a variety of flow measurement technologies in ad...[Read More](#)
